# Introduction

---

As a student eager to enhance my skills in the digital world, I am thrilled to be part of MASAR's Excel Bootcamp. Excel has always been a bit of a mystery to me, but I'm excited to unravel its secrets and become proficient in using it.

Joining this bootcamp feels like a step in the right direction for me. I'm looking forward to learning not just the basics but also some advanced techniques that will make me stand out in my studies and future career.

Throughout the bootcamp, I hope to gain a deeper understanding of Excel's features and functionalities. I'm particularly excited about learning how to work with data and create visually appealing charts and graphs.

Moreover, I see this bootcamp as an opportunity to connect with other students who share similar interests and goals. I'm excited to collaborate with them on projects and learn from their experiences.

Overall, I'm eager to dive into the world of Excel and see how it can help me in my academic and professional journey. With MASAR's guidance and support, I'm confident that I'll come out of this bootcamp with newfound skills and confidence in using Excel.

Pivot Table Number	Questions	Insights
1	What are the most common English levels among different genders? Which majors are most prevalent among males and females?	This pivot table can provide insights into the gender distribution across different English proficiency levels and majors. It can help identify any gender disparities in educational backgrounds or language proficiency.
2	How does the English proficiency level correlate with the type of job?	It can highlight whether certain degrees or language skills are more desirable in particular professions.
3	How does PC availability vary across different English proficiency levels?	It can help identify any disparities in technology access based on education or employment status.

## Analysis

Most people, regardless of gender, tend to have English Level 3, and both males and females commonly major in Management (MGT). When it comes to jobs, most people have access to PCs.

## Question #4: Dashboard

# Conclusion

---

The purpose of this report was to evaluate the outcomes of the Excel Bootcamp conducted by Masar Institutions, aimed at enhancing participants' proficiency in Excel for professional applications.

Over four weeks, my Excel skills improved a lot. I learned how to use advanced features, analyze data, and make charts. I started with basic skills and now I can do much more.

These new skills will help me make me more efficient in my work. I can handle data better and present it clearly, which will be useful for my future job tasks.

I will use these skills in my internships or jobs to get more experience.

In conclusion, the Excel Bootcamp at Masar Institutions was very helpful. I learned a lot, and these skills will help me in my future career.
